Access Sciences is a hands-on consultancy that focuses exclusively on helping clients strategically manage information and technology assets across their enterprise.

We implement information and technology solutions that:

- Manage risks associated with information lifecycles, regulatory compliance, find-ability, and discovery
- Increase productivity of employees, making it easier and quicker to find exactly the right information when it is needed
- Reduce operating costs associated with managing information assets

Bauer Business Career Fair

9.19.2012

booth #41

Access Sciences is a Houston-based, private, woman-owned business. We have a local ownership with a global reach; working in over 20 different countries.

<http://www.accesssciences.com>

AGL Resources has safely served customers with safe, efficient, reliable natural gas for more than 150 years. Today, we continue to build upon our reputation as a leader in the natural gas industry.

Our business segments consist of natural gas distribution operations, retail operations, wholesale services, midstream operations and cargo shipping. We are traded publicly on the New York Stock Exchange (NYSE) under the ticker symbol GAS.

booth #21

Sequent Energy Management is the company's Houston-based subsidiary primarily involved in asset optimization and energy marketing and trading. Sequent provides customers throughout North America with smart and proven ways to optimize energy programs and increase cost effectiveness from wellhead to burner-tip.

<http://www.aglresources.com>

## AIR LIQUIDE

Air Liquide develops innovative technologies and sustainable solutions, optimizing the use of air and the planet's natural resources, enabling progress and preserving life. Located in over 80 countries, we have more than 1,000,000 customers globally in diverse industries such as steel, food and beverage, electronics and pharmaceuticals. By using gases naturally present in the atmosphere, Air Liquide separates and purifies them into oxygen, nitrogen, argon, and various rare gases and then distributes them to clientele by pipeline, compression, cylinders, or in some cases, produced directly on a clients' site. Air Liquide also uses other natural resources of gas to produce other gases caused by chemical reaction for their clients' usage.

Bauer Business Career Fair

9.19.2012

booth #73

*Position(s) Available: ALLEX Program Participant, Various Internships*

<http://www.us.airliquide.com>

## ALTIVIA Corporation

ALTIVIA is a diversified Water Treatment Chemical Company with strengths in Manufacturing and Distribution. Whether your needs are disinfection, coagulation, or pH control of drinking water, waste water, industrial water treatment, or swimming pools... ALTIVIA has the right chemistry for you. We serve a wide variety of industries with products such as bleach, aluminum sulfate, specialty polymers, caustic soda, chlorine and sulfuric acid. Our primary focus is water treatment chemicals for municipalities, chemical & petrochemical industries, pulp & paper, catalysts and detergents industries.

Bauer Business Career Fair

booth #142

*Position(s) Available: Business/Accounting Analyst, Supply Chain & Transportation Regulatory Compliance Specialist*

<http://www.altivia.com>

## Amegy Bank

The Officer Development Program at Amegy Bank is a traditional credit training program designed to develop credit analysts into well-rounded bank officers who will be the company's future leaders. The program is organized to provide continuing growth and challenge at a tailored pace to advance toward commercial loan officer responsibilities.

All training takes place at the corporate office in Houston, Texas. Following training, opportunities are available in Houston, Dallas and San Antonio.

---

Bauer Business Career Fair

9.19.2012

booth #9

The Officer Development Program offers:

- A solid foundation in the basics of banking
- One-on-one working relationships with high-level bank decision makers

<http://www.amegybank.com>

Anadarko is among the largest independent oil and natural gas exploration and production companies in the world, with 2.54 billion barrels of oil equivalent (BBOE) of proved reserves at year-end 2011.

At Anadarko, we are committed to safely producing the energy we all need in a manner that protects the environment, public health and supports our communities. We take our responsibility seriously to safely deliver resources to our energy-hungry world, and we hold true to our core values of integrity and trust, servant leadership, commercial focus, people and passion, and open communication in all of our business activities.

## Anadarko Petroleum Corporation

Anadarko is one of the largest independent oil and natural gas companies in the world. We have built a legacy of growing our business by finding new supplies of oil and natural gas, and have demonstrated our success by replacing our annual production with new reserves for each of the past 25 years. Our projects create enormous career opportunities for people who are looking to turn their passion into a fulfilling career in the petroleum industry.

Find out what makes Anadarko the #1 Workplace in Houston when you intern in its dynamic ITS Department, building relationships and developing vital technical skills that will help you throughout your career.

## Hewlett Packard (HP)

At HP, we believe in the power of ideas. From cutting edge personal digital equipment to the most powerful IT solutions, we use ideas to put technology to work for everyone. And we believe that ideas thrive best in a teamwork culture. That is why everyone at every level in every function is encouraged to have original ideas, to express them and to share them. We believe anything can be achieved if you really believe in it, and we will invest in your ideas to change lives and working practices. It is all to do with what sets us apart as a company. Each individual is valued for the unique skills, experiences and perspective they bring. That's how we work at HP. And it's how ideas – and people – grow.

## HORNE CPAs & Business Advisors

Among many services offered by the firm, HORNE specializes in managing chaos and reducing risks associated with disaster recovery. By providing financial oversight and "as needed" program management, we remove program barriers for quick and effective funding with reduced risk of de-obligation. HORNE knows effective program execution and compliance with disaster grant programs can be the most demanding aspects of long-term recovery. And done wrong, delays and de-obligations can cripple communities and hinder recovery.

Our Texas offices anchor HORNE's disaster recovery practice group.

## Salvex

SALVEX was founded by the Wilson family with 45 years of salvage experience. The founder and CEO, Charlie Wilson, was also founder of SeaRail International Inc., a traditional salvage services company; founder and CEO of SalvageSale, another online commercial salvage company.

The combined experience listed above has given Salvex and Charlie Wilson a clear advantage in the salvage marketplace by combining new emerging technologies with global salvage experience. The strategy is to partner with existing service companies and manufacturing companies dealing with insurance claims, bankruptcies, liens, mishandled cargos, and asset recovery working together to recover as much money as possible for their salvage goods. Most products are commercial from all 16 major sectors of commerce.

Southwestern Energy Company is a growing independent energy company primarily engaged in natural gas and crude oil exploration, development and production within North America. We are also focused on creating and capturing additional value through our natural gas gathering and marketing businesses, which we refer to as Midstream Services. Our primary business is the exploration for and production of natural gas within North America, with our current operations being principally focused on development of the unconventional gas reservoir located on the Arkansas side of the Arkoma Basin, which we refer to as the Fayetteville Shale play. We are also actively engaged in exploration and production activities in Oklahoma, Texas, Pennsylvania, and New Brunswick, Canada.
