

## ACCT 7373 Applied Data Analytics in Accounting I

**Professor:** Ellen Terry

**Office Hours:** 360J Melcher Hall. To be announced in class

**Telephone:** 713-743-4820

**E-mail:** [ewterry@bauer.uh.edu](mailto:ewterry@bauer.uh.edu)

**Blog:** <http://econolytics.org>

**TA:** Giang Dang

**Email:** [ghdang@uh.edu](mailto:ghdang@uh.edu)

### Textbooks:

- **R for Data Science.** Garret Golemund and Hadley Wickham. <http://r4ds.had.co.nz/>
- **An Introduction to Statistical Learning.** Gareth James, Daniela Witten, Trevor Hastie and Robert Tibshirani. <http://www-bcf.usc.edu/~gareth/ISL/>
- **SQL Essentials.** Mark McIlroy. ISBN: 9781492345831

### Other Materials and Tools:

- Laptop Computer (Bring to Every Class);
- RStudio (available for download: <https://www.rstudio.com/>);
- Excel 2016 and Office 2016

**Course Objective:** Learn the Fundamentals of Data Analytics: Data Acquisition, Exploration, Transformation, Modeling, Sampling, Description and Inference – using R and SQL. Course serves as a Prerequisite to Accounting 7374.

**Learning Goals:** The C.T Bauer College of Business and the Department of Accountancy & Taxation have established Learning Goals for each of our programs as part of our accreditation by The Association to Advance Collegiate Schools of Business. Additional information about the learning goals for accounting may be found at <http://www.bauer.uh.edu/departments/accy/why-accounting/accounting-learning-goals.php>.

This course incorporates the following MSACCY Program Learning Goals: (a) oral communication skills through team and individual solution presentation; (b) written communication skills through team and individual solution development (c) research skills through individual research topics (d) technological skills through solution development using RStudio and SQL, and (e) analytical problem solving skills through solution envisioning and development.

**Class Methodology:** You will be expected to complete homework assignments prior to class - the knowledge is cumulative and the course is fast paced, so it will be important to stay on track. The course will blend lectures, discussions, and “hands-on” exercises for comprehensive understanding.

**Grading/Evaluation:** The grade for this course will be determined as follows:

<b>Homework</b>	20%
<b>Mid-Term</b>	40%
<b>Final</b>	40%

<b>0%</b>	<b>60%</b>	<b>70%</b>	<b>80%</b>	<b>90%</b>	<b>100%</b>
<b>F</b>	<b>D</b>	<b>C</b>	<b>B</b>	<b>A</b>	

Homework will be assigned, and students will be randomly called upon to present their solution. Knowledge and competence will be evaluated during the presentation. Your Homework Presentation grade will be the average of those Presentations.

**Blackboard:** You should use Blackboard Learn to access course material, handouts, files and announcements. Please verify that you are able to logon to the class site as soon as possible do that you do not miss out on any important information. All Assignments will be submitted through Blackboard.

**Withdrawals and Incompletes:** University policies regarding withdrawal dates and procedures apply. An incomplete designation is given in rare instances when a student doing acceptable work is unable to complete the course due to circumstances beyond the students control.

**Academic Honesty:** The University of Houston Academic Honesty Policy is strictly enforced by the C.T. Bauer College of Business and the Department of Accountancy & Taxation. No violations of this policy will be tolerated in this course. A discussion of the policy is included in the University of Houston Student Handbook at <http://www.uh.edu/dos/hdbk/acad/achonpol.html>. Students are expected to be familiar with this policy.

**Students with Special Needs:** The C. T. Bauer College of Business would like to help students who have disabilities achieve their highest potential. To this end, in order to receive academic accommodations, students must register with the Center for Students with Disabilities (CSD) (telephone 713-743-5400), and present approved accommodation documentation to their instructors in a timely manner.

**Cell Phones and Computers:** Please be professional and courteous by turning off your cell phones during the class. Computers with Office 2016 will be required at all classes. Messaging during class or exams is not allowed.

## Tentative Schedule

Section I: Data Acquisition and Transformation			
Week 1	Exercise	<b>R for Data Science:</b> Chapters 1,2,3	
Week 2	Data Acquisition and Transformation	<b>R for Data Science:</b> Chapters 4,5	Homework
Week 3	Data Acquisition and Transformation	<b>R for Data Science:</b> Chapters 9, 10, 11, 12, 14, 15, 16	Homework
Week 4	Relational Data and SQL	<b>R for Data Science:</b> Chapter 13 and SQL Handouts	Homework
Week 5	Relational Data and SQL		Homework
Week 6	Exam Review		
Week 7	<b>Mid-Term</b>		
Section II: Data Description and Modeling			
Week 8	EDA and Statistics Review	<b>R for Data Science:</b> Chapter 7	Homework
Week 9	Principal Component Analysis		Homework
Week 10	Linear Regression	<b>ISLR:</b> Chapters 1,2,3	
Week 11	Linear Regression		Homework
Week 12	Linear Regression		
Week 13	Final Review		
<b>Finals</b>	<b>Final</b>
