

Rafiq (Rick) Khadimally, PMP

Project Management / Interface Management

Rick has managed the crucial aspect of Project Interface Management on several major oil and gas projects. Throughout his career of nearly three decades of project management in USA and international, he has performed his role on Offshore Jacketed Platforms, TLP, Semisubmersible, SPAR, Drilling Rig, Subsea Tieback, Floating LNG projects. Currently, he is Consultant Interface Manager on Bechtel's Offshore projects, previously as Consultant on Chevron's Malange Project for Angola, and as Interface Manager with SBM Offshore, McDermott and Wison Offshore. He has also served in Project Management and Engineering capacities on several oil refinery projects at Aramco-Petromin Jeddah Refinery & LaGloria Refinery in Tyler TX. Rick holds an MBA degree in Global Energy from Bauer Business School (UH), an Executive Development Project Management program from Rice University, and a BS in Mechanical Engineering from University of Engineering & Technology where he topped the list with two medals. He is Project Management Professional certified as PMP, is participative in PMI chapters and Rice Global E&C Forum, most recent are PMI-worldwide webinar on 'Interface Management for Oil & Gas mega-Projects' and presentation 'Interface Management Energized Concurrent Engineering'.
