

Dr. Newell is an expert in electricity wholesale markets, the transmission system, and RTO rules. He supports clients throughout the United States in regulatory, litigation, and business strategy matters involving wholesale market design, contract disputes, generation asset valuation, transmission development, demand response (DR) programs, and integrated resource planning. He has written expert reports for RTOs and provided testimony before state regulatory commissions and the FERC.

Prior to joining The Brattle Group, Dr. Newell was Director of Transmission Services at Cambridge Energy Research Associates. Before that, he was a Manager in the Utilities Practice at A.T. Kearney.

Dr. Newell earned a Ph.D. in technology management and policy from the Massachusetts Institute of Technology, an M.S. in materials science and engineering from Stanford University, and a B.A. in chemistry and physics from Harvard College.
